EYE CONTACT:	Rinse cautiously with eyewash solution or clean water, holding the eyelids apart for several minutes. Remove contact lenses if present and easy to do. If eye irritation persists: Get medical attention. Continue rinsing eyes during transport to hospital.
SKIN CONTACT:	If on skin or hair, take off immediately all contaminated clothing and shoes. Rinse skin, washing thoroughly with water. Get medical attention if irritation persists.
INHALATION:	Remove patient from exposure, keep warm and at rest. Get medical attention.
INGESTION:	Clean mouth with water and drink afterwards a glass of water. Keep respiratory tract clear. Do not induce vomiting. Immediately call a POISON CENTER / Doctor.

5.2 Hazards: Not applicable. Aqueous solution. Non-combustible.

5.3 Fire-fighting procedures: None.

5.4 Special protective equipment: Self contained breathing apparatus and protective clothing should be worn in the case of fire.

6. Accidental Release Measures

6.1 Personal Precautions, Protective Equipment, and Emergency Procedures

Use personal protective equipment. Wear chemical safety glasses, rubber boots and heavy rubber gloves. Prevent further leakage or spillage if safe to do so.

6.2 Accidental Release Measures

In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

6.3 Methods and Materials for Containment and Cleaning Up

Provide adequate ventilation. Caution: Spillages may be slippery. Ventilate the area. Soak up with inert absorbent material (e.g., sand, silica gel, universal binder, sawdust) Keep in suitable, closed containers for disposal.

6.4 Environmental Precautions

Do not allow to enter drains, waterways, sewers, basements, or confined areas. Do not discharge into the subsoil / soil. Absorb spills with inert material and place in a chemical waste container. If the product contaminates rivers and lakes or drains inform the respective authorities.

7. Handling and Storage

7.1 Handling

Technical measures:

Use only in well ventilated area. Avoid breathing vapor or mist. Avoid all personal contact.

Safe handling advice:

Use personal protective equipment. Avoid generation of mist. Emergency shower and eye wash facilities should be readily available.

Contact avoidance measures:

No data available.

7.2 Hygiene Measures

Wash hands before breaks and after work. Remove soiled or soaked clothing immediately. Wash contaminated clothes before reuse. Do not eat, drink, or smoke when handling this product. Remove contaminated clothing and protective equipment before entering eating areas.

7.3 Storage

Safe storage conditions: Keep at a temperature not exceeding 50 °C. Do not allow material to freeze. Keep container tightly closed. Store in cool/well ventilated place.

Safe packaging materials: No data available.

8. Exposure Controls / Personal Protection

8.1 EXPOSURE LIMITS

Hazardous Components (Chemical Name)	Occupational Exposure Limits
Titanium Dioxide	15 mg/m ³ . TWA (dust total) *
C.I. Pigment Black 7	3.5 mg/m ³ . ACGIH TLV TWA.

* Both pigments are dispersed in a liquid phase. They are not present in solid state as dust or loose particles.

8.2 EXPOSURE CONTROLS

APPROPRIATE ENGINEERING CONTROLS

Use local exhaust ventilation to maintain airborne concentrations at safe levels. Ensure adequate ventilation, especially in confined areas. Suitable respiratory equipment should be used in cases of insufficient ventilation or where demand it.

GENERAL INFORMATION

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. Supplementary local exhaust ventilation, closed systems, or respiratory and eye protection may be needed in special circumstances, such as poorly ventilated spaces, heating, evaporation of liquids from large surfaces, spraying of mists, mechanical generation of dusts, drying of solids, etc.

PERSONAL PROTECTIVE EQUIPMENT

Respiratory Equipment:

Respiratory protection not normally required. If exposure cannot be controlled below applicable limits, use the appropriate NIOSH approved respirator such as an air purifying respirator with organic vapor cartridge and dust /mist filter. Consult the respirator manufacturer's literature to ensure that the respirator will provide adequate protection. Read and follow the manufacturer's instructions.

Eye Protection:

Use tightly fitting chemical splash goggles. Wear face shield if splashing hazard exists. Contact lenses should not be worn when working with chemicals because they contribute to the severity of an eye injury in case of exposure.

Hand Protection:

Use impermeable gloves. Neoprene or butyl-rubber gloves.

Body Protection:

Use impervious clothing and chemical resistant boots. Consider using resistant coveralls and aprons if extensive exposure is possible.

Other Protective Equipment:

Ensure that eyewash stations and safety showers are close to the workstation location.

General Hygiene Consideration:

Do not breathe mist or vapor. Avoid all contact. Do not eat, drink, or smoke when using this product. Wash thoroughly after handling. Remove and wash contaminated clothing before re-use. Do not take contaminated clothes home.
